Anne Arundel Community  
College  
**2021**  
Architecture, A.A.S.

Catholic University of America  
**Expected 2024**  
Architecture, M.Arch

## PROFILE

---

My name is Ashton, and I'm a graduate student at Catholic University's Architecture school expecting to graduate in the spring of 2024. I made my way to architecture after a short career in Business IT, which I found ultimately unsatisfying. In 2019 I enrolled in my local community college and began a journey to realize my passion in architecture. For years I had poured my free time into design as a hobby. I now seek to make it my career.

## EXPERIENCE

---

Microsoft Engineer - Plan B Technologies Inc.

### **2015-2018**

Designed, deployed and maintained IT infrastructure for Plan B Technologies, an IT consulting firm in Annapolis, MD.

Director, IT – Nissan of Lexington Park

### **2018-2019**

Lead a ground-up IT build for Nissan of Lexington Park during its construction: included creating a digital customer service process, oversaw employee training and certification, and implemented paperless workflow.

Bartender – Annapolis Yacht Club

### **2019-2022**

Back to school full-time. Bartending at the Annapolis Yacht Club pays the mortgage.

Intern – Good Architecture

### **Summer 2023**

Drafting, modeling, rendering, scheduling, design development, site visits and documentation, post-processing, award submission documentation

Freelancer

### **2020-Present**

Anything and everything I could offer: interior design, bathroom remodel, apartment redesign, design concept for a residence, drafting, rendering, etc.
